

DICUT

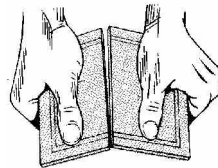

| Tool no. | Description | Category |
|-------------|---|----------|
| DICUT NO. 1 | Two identical knives score plastic laminates, asbestos-cement, vinyl etc. | B |

| Tool no. | Description | Category |
|-------------|--|----------|
| DICUT NO. 2 | Two different knives enable cutting of various materials: Blade A for laminates asbestos-cement etc. Blade B for glass, tiles etc. | B |

Score with aid of a straight-edge; the blade should be held at an angle of about 30° to the scored surface.

Hold the straight edge alongside the score, grip the free end and lift to snap it.

Tiles should be soaked with water before scoring. They are broken downwards with scored line facing up.

If required, the carbide tips can be resharpened on a diamond wheel.
