Toronto, Ontario -Dimar Canada Ltd. is proud to announce the release of its new Electrostatic Coating

A new Coat for Dimar...

After many months of research, development and testing, Dimar Canada Ltd. is excited to announce the release of its new and improved Dimar **Nova Industrial Dado Sets** (Tool # 8-24 DADO and 8-46 DADO TN) featuring our new D-COAT electrostatic coating!

This new patented Dimar technology will change the saw blade market forever and will even further solidify Dimar's leading position in the industrial woodworking cutting tool market. Using specialized nanotechnology, Dimar created the next generation saw blade coating that is guaranteed to exceed your expectations! The new D-COAT is a thin but extremely powerful and strong coating that is applied to the body and teeth of the saw blade. This innovative coat will protect the blade from rust and resin, guaranteeing the product a longer life time and ensuring optimum performance during use.

Features and Benefits:

- Coating gives a clear finish, you see the perfect grind and brazing that you have come to expect from Dimar!
- The coating has no sensitivity to solvent cleaners, simply clean with water and solvent!
- Coating contains no harmful chemicals and is environmentally friendly.
- The specialized coating covers the teeth on the blade, maximizing the life time and cutting performance of the product.
- The coating will last the lifetime of the blade!
