**Router Bits ♦ Drill Bits ♦ Saw Blades ♦ Planer Knives ♦ Cutters ♦ Bandsaws ♦ Abrasives**

**Toronto, Ontario -Dimar Canada Ltd.** is proud to announce the release of its new Woodpecker Professional 4 pc. Knuckle Joint Router Bit Set (Tool # WPK-SET)

Dimar’s Knuckle Joint router bit set consists of four 1/4” shank Knuckle Joint router bits that allow a user to create a Knuckle Hinge Joint. In woodworking, a knuckle joint is often used to connect a moveable table leg to the framing, where it is necessary for the table leg and rail to swing outwards and support a drop leaf. The pivot is often formed by using a round iron rod that runs through the centre of the joint.

### Why should you choose Dimar’s Woodpecker Professional 4 pc. Knuckle Joint Router Bit Set?

- Easy to use set that allows any one with a router to create their own Knuckle Joint!
- Full Size Carbide tips for better chip ejection
- Thick Carbide Teeth (2.2mm) for 10-15 sharpenings
- CNC machined hardened body for vibration free operation
- Precise match of body to carbide contour for better edge support
- Economically priced to fit your budget
